TABLE I.

**AREA, HOUSES AND POPULATION.**

THIS table shows for each district in Bengal as now constituted the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female. The districts are arranged in this and other tables in the order prescribed by Government.

Similar figures are given for Sikkim and the two Feudatory States Cooch Behar and Hill Tippera attached to Bengal.

The difference between some of the areas here shown and those in the corresponding table of 1901 is due principally to inter-provincial and inter-district transfers, as explained on the title-page of Table II. In some cases the figures given in the Imperial Gazetteer have been adopted; for Jalpaiguri, Dacca, Faridpur and Backergunge revised figures have been supplied by the Settlement Officers; while the areas of Backergunge, the 24-Parganas and Khulna have been increased by the inclusion of the Sundarbans. The area shown for Calcutta, though different from that given in Table I of the Bengal Census Report of 1901, which excluded the "water area" (*i.e.*, the port and canals), is the same as that given in Table I of the Calcutta Census Report of that year.

For the purpose of column 3 (number of towns) all cantonments have been treated as forming part of the municipalities which they adjoin. Buxa Cantonment in Jalpaiguri is treated as a town, as it does not adjoin any municipality.

Statistics for thanas will be found in Provincial Tables I and II at the end of this volume.

TABLE II.

## VARIATION IN POPULATION SINCE 1872.

THIS table compares the population as now ascertained with that of the four previous censuses. The figures for the latter differ slightly from those shown in the old Census Reports in all districts except Chittagong and Chittagong Hill Tracts. This is due to subsequent changes of jurisdiction, i.e., transfers of area from one district to another. The effect of these changes on the population of the districts concerned has been calculated, and the figures have been adjusted accordingly.

The following are the districts which have undergone changes of jurisdiction:—

### *Between 1872 and 1881—*

Burdwan, Birbhum, Bankura, Midnapore, Hooghly, 24-Parganas, Murshidabad, Jessore, Rangpur, Mymensingh, Faridpur, Backergunge, Tippera and Noakhali.

### *Between 1881 and 1891—*

Burdwan, Birbhum, Midnapore, Hooghly, Nadia, Darjeeling, Rajshahi, Jalpaiguri, Bogra, Malda, Dacca, Mymensingh, Faridpur and Tippera.

### *Between 1891 and 1901—*

Hooghly, Howrah, Rajshahi, Dinajpur, Jalpaiguri, Bogra, Pabna, Dacca and Faridpur.

### *Between 1901 and 1911—*

Burdwan, Hooghly, Nadia, Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Pabna, Malda, Dacca, Mymensingh and Faridpur.

The Province as now constituted lost 616 persons by transfer from Jalpaiguri to Goalpara between 1891 and 1901 and 2,535 persons by transfer from Malda to Purnea between 1901 and 1911.

In 1906, the control of the State of Sikkim, with an area of 2,818 square miles and a population (according to the census of 1901) of 59,014 persons, which had till then been attached to the Lieutenant-Governorship of Bengal, was taken over by the Government of India.

TABLE III.—TOWNS AND VILLAGES CENSUSED BY POPULATION

[illegible]

TABLE IV.

**POPULATION OF TOWNS**  
**WITH VARIATION SINCE 1872.**

This table shows the population of all cities and towns, *i.e.*, municipalities, cantonments, and certain other places which are of an urban character though not under municipal government. While in Table V cities and towns are arranged territorially, in this table they are classified by population in the following six classes:—

Class I	...	...	...	...	100,000 or over.
" II	...	...	...	...	50,000 to 100,000
" III	...	...	...	...	20,000 to 50,000
" IV	...	...	...	...	10,000 to 20,000
" V	...	...	...	...	5,000 to 10,000
" VI	...	...	...	...	under 5,000

To enable comparison to be made with previous censuses when the cantonment population was not separately recorded, the population of cantonments has been added to that of the municipalities which they adjoin, but separate figures have also been given for them below the totals for the municipalities in question. The population of these cantonments is shown below:—

CANTONMENT.	Municipality with which included.	Total population.	Males.	Females.
Fort William ...	Calcutta ..	4,411	3,931	480
Alipore ..	Ditto ...	1,174	1,069	105
Dum-Dum ...	North Dum-Dum	3,518	3,392	1,426
Barrackpore ...	South Barrackpore	11,435	7,852	4,133
Jalapahar (including Kalapahar).	Darjeeling .	915	802	318
Lahong ...	Ditto .	1,037	935	312

The population of Calcutta and the suburban municipalities, as returned at enumerations previous to 1901, has been adjusted on account of subsequent changes in municipal boundaries. The figures now given represent the population of the area now included in each municipality. Similarly, the figures for Howrah in 1872 and 1881 represent the population of the present area of that municipality, excluding Bally, which was cut off and formed into a separate municipality in 1883. The population of the municipalities at Dacca and Agartola, as returned at previous enumerations, has also been adjusted on account of subsequent changes in municipal boundaries, and the figures given in the table represent the population of the area now included in each municipality. With these exceptions, adjustments have not been made on account of changes in municipal areas, and the old figures have been left unaltered.

During the decade there have been numerous changes in the areas of municipalities in the Burdwan and Presidency Divisions, the urban population increasing by 13,748 owing to the extension of and decreasing by 4,512 owing to the reduction of the area within municipal limits. Two places, *viz.*, Kharagpur and Dhulia (constituted a municipality subsequent to 1901), have now been classed as towns for the first time; the result of the present census is to show that they contain an aggregate population of 27,255. Another place, Halishabar, which was created a municipality in 1903 and is therefore now shown separately, was in 1901 part of the Naihati municipality.

The City of Dacca comprises, besides the Dacca municipality, the civil station at Ramna. The population of each part is shown below:—

	Population.	Males.	Females.
Dacca Municipality	193,152	91,703	101,449
Civil Station at Ramna	909	438	471

TABLE V.

**TOWNS ARRANGED TERRITORIALLY**  
**WITH POPULATION BY RELIGION.**

In this table, as in Table IV, cantonments have been treated as forming part of the municipalities which they adjoin, but separate figures have also been given for them below the totals. The column "Others" includes the following:—

TABLE VI.

**RELIGIONS.**

THIS table shows the distribution of the population by religion. It is in the same form as in 1901, but Agnostics, Theists, and Atheists, who in that year were classified under the head "Minor," are now shown under the head "Christian;" they are also shown under the head "Indefinite Beliefs" in Table XVII. The head "Minor Religions" includes the following :—

***AGE, SEX AND CIVIL CONDITION.***

THIS table is divided into three parts. *Part A* shows the distribution, for the Province as a whole, of the total population and of each religion by age, sex and civil condition. *Part B* shows the distribution, for Districts and States, of the total population and of the main religions by age, sex and civil condition; but in this part, in order to economise space, the age statistics have been given in less detail than in the provincial summary. *Part C* gives similar details for cities.

T A B L E VIII.

**EDUCATION.**

THIS table, like Table VII, is divided into three parts. *Part A* shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned. *Part B* gives details for Districts for the total district population and for each main religion. *Part C* gives similar details for Cities.

The table shows the number of persons literate in any language as well as those literate in English, the figures in columns 11 to 13 being included in those in columns 5 to 7. The test of literacy adopted at the census was the ability to *both* read and write a letter, persons of whatever age who could write a letter to a friend and read the answer to it being entered as literate, and those who could not do so as illiterate.

The following statement shows the number of literate persons among Indian Christians and other Christians such as Europeans, Armenians and Anglo-Indians :—

TABLE IX.

**EDUCATION**

*BY SELECTED CASTES, TRIBES OR RACES.*

THIS table repeats the information given in Table VIII in respect of education, with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover, in Table VIII, the whole population is dealt with, but this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification, which the present table does not. The strength of some castes also is not the same as in Table XIV owing to the fact that figures have been compiled for different local areas.

## LANGUAGE.

IN this table the languages returned at the census are arranged under the following headings :—

A. Languages of India	...	{	(1) Aryan	languages.
			(2) Tibeto-Burman	„
			(3) Siamese-Chinese	„
			(4) Mon-Khmer	„
			(5) Munda	„
			(6) Dravidian	„
B. Asiatic and African languages foreign to India.				
C. European languages.				

Languages which are either numerically insignificant or too localized for separate entry are grouped together under the head “Others” in each part. Details of these minor languages are given in the appendix printed at the end of the table, in which also will be found a statement of the number of persons speaking different dialects. A classification of languages by linguistic families will be found in Part I of the Report.

*B I R T H P L A C E.*

THIS table is divided into two parts. Part A contains the statistics of birthplace for the Province as a whole and for each district and State comprised in it. Part B contains similar information for certain towns, which were treated at the census as cities.

The birthplace statistics for Calcutta are given in Part A, and are therefore not repeated in Part B, but they are included in the figures showing the total for all cities (columns 2, 3 and 4 of Part B).

TABLE XII.  

---

*INFIRMITIES.*

THE infirmities recorded are the same as in 1901, *viz.*, insanity, deaf-mutism from birth, total blindness and leprosy.

The table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality. Statistics are also given in Table XII-A of the infirmities from which certain selected castes suffer.

Persons who were returned as suffering from more than one infirmity have been shown under each. The totals entered under “Population afflicted” in columns 2, 3 and 4 consequently do not agree with the totals for each infirmity. The following statement shows the number of persons afflicted with more than one infirmity:—

(a) *BENGAL.*

## TABLE XIII.

---

### *CASTE.*

THIS table is divided into two parts. Part A\* gives statistics for the castes and tribes of Hindus, Animists, Buddhists and Jains, and Part B for Muhammadans. The figures for Christians are omitted from this table, as they are dealt with in Tables XVII and XVIII.

In the Burdwan and Presidency Divisions and in Darjeeling and Cooch Behar statistics have been compiled only for selected castes while in Eastern Bengal all castes have been dealt with. Against each caste, not dealt with in the former, an asterisk has been put and a foot-note added showing that statistics for it have been compiled in Eastern Bengal only.

Castes which are numerically insignificant, and which are either of foreign origin or too localized for separate entry, are grouped together under the head "Minor Castes" in each part, details being given for them in the appendix printed at the end of the table.

As a rule, persons converted from Hinduism or Muhammadanism to Christianity were returned as "Native Christian," and their caste of origin was not mentioned in the census schedules. In the case of converts belonging to aboriginal tribes, however, the name of the tribe was frequently given, and the number so returned has been noted in the remarks column of the table.

Where some members of a caste or tribe profess one religion and some another, separate figures have usually been given for each; but if the second religion was returned only in respect of a very small number of persons, the figures for it have been added to those for the main religion, and the number so added has been noted in the column of remarks.

As far as possible, groups that are not true castes have been eliminated from the table, and the figures for them added to those for the castes to which they appeared to belong after such enquiries, local and otherwise, as it was possible to make within the limited time available. The more important of these groups are mentioned in the remarks column.

TABLE XIV.

---

***CIVIL CONDITION BY AGE FOR SELECTED  
CASTES.***

THIS table contains statistics of civil condition by age for selected castes or tribes, whereas Table VII (age, sex and civil condition) deals with the total population. There is this further difference between the two tables, that the age periods are not the same, the periods 5-12 and 12-15 being substituted in this table for the periods 5-10 and 10-15 given in Table VII. As in Table IX, the selected castes and tribes are grouped together for homogeneous districts, or statistics are given for single districts in which they are especially numerous.

The strength of some castes is not the same as in Table IX owing to the fact that figures have been compiled for different local areas.

## TABLE XV.

---

### ***OCCUPATIONS.***

For the purpose of this table, a new scheme of classification of occupations, based on that drawn up by M. Bertillon, has been framed by the Census Commissioner. All occupations are divided, according to this scheme, into four main classes and subdivided into 12 sub-classes, 55 orders and 169 groups.

The table is divided into five parts, A, B, C, D and E. Part A is subdivided into two sections. The first section contains a general summary giving the total strength of each group, order, sub-class and class for (1) British territory, (2) Feudatory States and (3) cities. The second section gives for each district and State the total strength of each order and detailed statistics of those groups, the strength of which reaches 1,000 in any district. Part B shows the subsidiary occupations of those persons whose main occupation is agriculture. Part C (combined occupations), which is optional, has not been compiled for this Province. Part D shows the distribution of occupations by religion. Part E embodies the results of the industrial Census, and its scope is explained in the title page prefixed to it.

***STATISTICS OF INDUSTRIES.***

THIS table furnishes statistics of industrial concerns, such as mines, mills, factories, etc., in which twenty persons or more were employed at the time of the census. It is divided into four parts. Part I shows for the Province as a whole the number of persons employed in each kind of industry distinguishing between industrial concerns in which mechanical power is used and those in which it is not, and classifying them according to the number of persons employed. Part II gives for each district the number of persons employed in each industry without these details. Parts III and IV show the castes and races of the owners and managers of industries that are of special importance. An appendix is given at the end of the table, in which the industries are grouped together by districts.

### OCCUPATION

#### *BY SELECTED CASTES, TRIBES OR RACES.*

IN this table statistics are given of the occupations of selected castes and races in areas where they are especially numerous or otherwise important. The occupations are arranged under 13 main heads corresponding to the sub-classes of the scheme of classification adopted in Table XV-A: these heads have been sub-divided, where necessary, in order to distinguish between different occupations. Columns 7 to 10 are intended to throw light on the extent to which traditional caste occupations are followed, while columns 11 and 12 are designed to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. The figures in the subsequent columns are exclusive of the number shown in columns 7 and 8 as following the traditional occupation. Columns 9 to 12 have been compiled for Eastern Bengal only.

The appendix at the end of the table consists of four parts. Part I shows the occupations of the persons in Eastern Bengal who were returned—literate in English, the arrangement being the same as in the main table. Part II shows, for a few important occupations, the distribution by caste of Hindus and by religion of members of other religions, who were returned as actual workers: the figures for inmates of jails relate to the whole Province, the remainder to Eastern Bengal only. Part III shows the castes of tea-garden employees and Part IV the castes of jute mill employees in the Province.

TABLE XVII.

**CHRISTIANS BY SECT AND RACE.**

THIS table shows the denominations of Christians of all races. The classification, which is prescribed by the Census Commissioner for India, differs from that adopted in 1901, the principal changes being as follows:—

- (1) Persons who returned themselves as Protestants without specifying any particular denomination, and whose denomination could not be ascertained by means of subsequent enquiries, were treated in that year as members of the Anglican Communion. They are now classified under the head "Protestant (Unsectarian or sect not specified)."
- (2) Under this latter head also are shown persons who returned themselves as Dissenter, Nonconformist, Unsectarian or Undenominational. In 1901 they were classed under the head "Minor Denominations," which is now reserved for true sects or denominations.

Armenians have been classed in this table under the head "European and allied races." They are shown separately in Table XVIII, from which information regarding their numbers, etc., can be obtained. Under the orders of the Government of India, those formerly known as Eurasians are shown under the head "Anglo-Indians." The Feringis of Eastern Bengal are treated as Anglo-Indians for the purpose of this table.

Details of the entries grouped together under the head "Minor Protestant Denominations" are given below:—

\* In column 2 the area of the wards and other parts of Calcutta is given in acres and in column 12 the number of persons per acre has been shown. The figures in these two columns for Calcutta as a whole are for the square mile and not the acre. In the Port and Canals each occupied vessel was treated as a house.
